TIPS FOR YOUR *Photoshoot*

#1 PLAN ENOUGH TIME FOR HAIR AND MAKEUP

Allow more time than you think you need for hair and makeup. Feeling rushed will show in your photos. It is wise to consult with your artists to determine the necessary time it will take, remembering to account for their travel time if they are coming to your location.

#2 CREATE A SHOT LIST WITH YOUR PHOTOGRAPHER

Collaborating on a shot list is a crucial step in planning your session. Together, we can outline the specific shots you want to capture, whether it's family portraits, candid moments, or specific branding sessions. Your input ensures no important moment is missed, giving us a clear, shared vision for the day.

#3 ASK CLIENTS TO BRING PROPS

Including personal items or props can provide a beautiful storytelling aspect to your images. Bring along objects that showcase who you are or what you do for a living, such as a favourite book, musical instrument, or tools of your trade. These elements help capture the true essence of your personality.

#4 TRUST YOUR PHOTOGRAPHER

Please have trust in your photographer's expertise and direction during the shoot, while also expressing any preferences or concerns openly. During the session, your photographer will give directions for posing and positioning, as slight adjustments can significantly impact the final outcome of the photos.

#5 ALWAYS REMEMBER TO HAVE FUN

Remember to always relax and enjoy the experience. The best photos happen when you let go. When you feel relaxed and present, your photos become natural, effortless, and truly you.

OUTFIT TIPS FOR YOUR *Photoshoot*

PREPARING YOUR WARDROBE & DETAILS

Your wardrobe plays a key role in the overall feel of your images. Choose pieces that feel effortless, flattering, and true to you. When you feel confident, it translates beautifully on camera.

For branding sessions, consider bringing looks that reflect your professional identity, along with any elements that represent your work, tools, materials, or signature pieces.

These thoughtful details allow us to create imagery that feels refined, intentional, and uniquely yours.

WHAT TO AVOID

Avoid busy patterns, large logos, or anything overly distracting, as these can take attention away from you and date your images over time.

Ill-fitting clothing can affect both your comfort and the overall look of your photos. Choose pieces that fit well and allow you to move naturally.

Leaving decisions until the last minute often leads to unnecessary stress. Planning ahead ensures a smoother, more relaxed experience on the day.
